

# iframe IDX Configuration

1. Login to Matrix
  - a. Click "My Matrix"
  - b. Click "Settings"
  - c. Click "IDX Configuration"
    - i. Once in the IDX Configuration you will need to choose the "IDX Type" and also enable it
    - ii. You can also choose the page color as well as the header background and color
  - d. Click "Save" after the correct options are chosen to generate the HTML code
  - e. Copy the HTML code and send it to your website developer in order to get this framed solution on your website.

The image shows the 'IDX Configuration' form. It includes sections for 'Form Selection' (IDX Type: My Listings, My Listings Query: See My Listings), 'Activation' (IDX Enabled), and 'Other Options' (Page background color: #ffffff, Header background color: #e0e0e0, Header font color: #000000). A 'Save' button is highlighted in a red box. Below the form, the generated HTML code is shown: `<iframe src="http://iow.mlsmatrix.com/Matrix/public/IDX.aspx?id=d1a71a" width="900px" height="720px">`. The 'Save' button is also highlighted in a red box.
